

PORTABLE HYPERBARIC CHAMBERS

PORTABLE, COMFORTABLE and FDA APPROVED

Designed to be light-weight and portable for use in clinics and for home use, the chamber comes with dual air-exchange valves and redundant pressure regulator. A patented double-sided zip closure permits easy self-treatment. Three large windows make it comfortable and reassuring for the patient and easy for medical attention.

FDA-approved for operation at 1.3 ATA

All the required accessories come with the standard model including the mattress, air compressor with high-efficiency 0.01 micron filters, etc.
